

# Miva

## Integrated Payment Processing for eCommerce

### Integrated and Flexible

Work seamlessly within the business systems you already use to avoid manual entry and reduce error with an all-in-one, integrated payment processing solution.

- Tokenized credit card data simplifies PCI compliance
- Level 3 processing
- Multi-currency capability
- Manage customer payment profiles from within back office
- REPAY Vault hosted payment form
- Custom API
- No installation, maintenance, or setup fees
- ERP integration compatible
- 24/7 live support

### Faster Funding

REPAY offers omni-channel B2C and B2B integrated payment solutions for every business. REPAY is a gateway and processor that is trusted by thousands of merchants daily to process payments. If you do not understand your bill, we will educate you on how you are currently priced.

PCI/DSS  
Compliant

Dedicated  
Training

## REPAY Vault

The REPAY Vault is seamlessly integrated within the Miva software, allowing you to store customer payment credentials off of your own server for future use. REPAY Vault is a PCI/DSS compliant gateway with multiple reporting tools for reconciliation. Use our tokenized protection and data encryption to further enhance your security.

The screenshot shows a web interface for a user named Melanie Frasier. The left sidebar contains navigation options: CREDIT CARDS, RECURRING, CUSTOMER VAULT, INVOICES, SOFTWARE, and OTHER SERVICES. The main content area displays a 'Transaction Report' for the period from 01/01/2019 12:00 AM to 01/04/2019 11:59 PM. The report is a table with columns for Type, Status, ID, and Amount.

| Type      | Status   | ID                       | Amount |
|-----------|----------|--------------------------|--------|
| Card Sale | Approved | 4455865290<br>PMT-001402 | 20.00  |
| Card Sale | Approved | 4456059634<br>1234       | 90.00  |
| Card Sale | Approved | 4456511826               | 46.48  |

## Level 3 B2B Rates

Level 3 processing allows you to receive discounted rates on Visa® and Mastercard® B2B transactions. Level 3 transactions use lower interchange rates than Level 1 and Level 2 transactions. Merchants wanting to receive Level 3 processing rates must be on an Interchange Plus Pricing plan. The Miva integration from REPAY automatically sends the required data to ensure maximum cost savings for B2B transactions.

## Hosted Form via secure iFrame

Our Miva-ready hosted form via iFrame is perfect for developers, partners, and merchants to adopt as a part of their payment processing solution. The REPAY solution was designed to seamlessly integrate with the Miva payments page to sit on our servers and process level 3 data at significantly lower rates. This hosted form captures customer information and collects sensitive cardholder data, reducing your PCI/DSS scope. Protect yourself from security breaches and heavy fines while providing an easy to use payment option for customers.

Easily configure the look and feel of the hosted form to suit your needs. Our in-house development team is standing by to walk you through the process today.

The screenshot shows the 'Payment Settings' page for REPAY. The 'APS Payment' tab is selected. The settings include fields for Live Key, Test Key, Sandbox Mode (Yes/No), Payment Type (Sale), Item Commodity Code, Summary Commodity Code, Send Receipt (Yes/No), Currency (USD), Theme ID, Display Name, and Debug Mode (Yes/No). A 'Payment' modal window is overlaid on the right, showing transaction details for a capture of \$47.00.

| Field                | Value           |
|----------------------|-----------------|
| Authorized:          | \$47.00         |
| Captured:            | \$47.00         |
| Refunded:            | \$0.00          |
| <b>Net Captured:</b> | <b>\$47.00</b>  |
| Payment Type:        | Credit Card     |
| Transaction ID:      | 5108666568      |
| Billing ID:          | 1393847187      |
| Shipping ID:         | 189859182       |
| CC-Number:           | 555555*****4444 |
| CC-Exp:              | 1222            |
| AVS-Result:          | N               |
| CVV-Result:          | N               |
