Simple & Secure Vendor Payments
for Otelier DigiPay

How many checks do you cut each month to vendors?

45% of businesses still make most of their B2B payments via check. [Source: Mastercard Commercial Solutions]

Checks are inefficient, error-prone and, increasingly, targets of fraud. Digitize the vendor payment process without disrupting current accounting procedures with REPAY. We integrate seamlessly into Otelier DigiPay so you don't need a separate platform to pay vendors.

Simplify Vendor Payments

Virtual cards and ACH offer faster and more secure ways to pay the vendors your properties rely on.

You simply trigger the payment, and we handle the rest, automating the entire end-to-end process so vendors get paid faster using fewer resources.

Realtime vendor enrollment at payment due date

No implementation, training or maintenance costs

Representative Assisted Payments via web portal, IVR, fax

Payments disbursed within 48 hours regardless of payment type

No payment batch limits or transaction limits

Eliminate material and labor costs associated with paper checks

Maximize Payment Protection

AP teams are prime fraud targets, given the paper processes they still use. However, payment protection is expensive, time-consuming and labor-intensive.

REPAY's vendor payment automation enables hotel management groups to protect every payment – at no cost!

Each payment is disbursed from a custodial bank account, mitigating fraud risk to operating accounts.

3.5% average portion of annual revenue lost to fraud.
